Noats and Remembrances of some affayrs in Metchlepatam and Maddapollam.

[Mr. Broughs] Mendm^{s} concern^{g} [Metchlepatam] & Maddapollam.

The ffactorys are both much out of repayre, and to Repayre them well, will cost at least Seaven or Eight Thousand Pagodoes each, But if not Settled, the necessary repayre to keep them from falling will require two or three hundred Pagodoes ; and the tyme to doe it is now this dry Season, before the Raines comes in ; In Metchlepatam the great house and Godownes and Cookroome are all so leaky, that if some care be not taken they will rott and fall down, allso the Standard begins to rott ; the Brick work loose, the Gyes rotten will want Europe Rope, Tarr &c^{a} and the Pales round y^{e} ffactory are much decay'd.

Since thirty thousand of our horses came from above, at once, at first bout, we took, Allemaunde Cawn, and Macaye Small Cawn, whome we have now in our ffort of Chingee,* since the Mogulls death, and Shah Allums comeing to the Throne,

who had allwayes a great kindness for Vizapore and Golcondah, wch: your Honr: is very well sencible of) my Enemyes are come to nothing, and Caun Bux being now a Prisonr: Assid Caun and Zulphakore are very much troubled, but we concern ourselves no more about them, than with Macaye Small Caun, whome we look upon as our Prisoner likewise, ffor we now vallue not our Enemys one farthing.—Over Golcondah Countrey fforts, Conjeverone and Callapa Countrys, we have made Causau Ramanah Subidore, who will bring all under our Government, and he will write to you desireing yor: assistance therein. Our Enemys being now dispersd. Wherein you will so far obleige me as to make me contribute all I can, that your affayrs may prosper to the utmost. Whatever Causau Ramanah writes to you about, pray comply with him in, who will give me an acctt: thereof, and shall be highly estemed by me. Your Honour being a wise Judicious Person I need not write more largely. Onely desireing your Honr: would often acquaint me of your health.

TRANSLATE OF A LETTR FROM CAUSAU RAMANAH FROM CONJEVERONE TO CAPT: MORE OF CHENOPOTAM DATED THE 8TH JANRY 169⅔ & RECD THE 9TH DTO. a Translate of a Lettr.

I enjoy my health and should be glad to heare the like from your Honr: Your Honr: is sencible of our haveing taken Prisoners Allemaunde Caun and Macaye Small Caun, and of the Mogulls Army being in great disorder, Zulphakor de Caun lately marching out of the Mogulls Camp to Wandewas to gett Provisions and Santoge Goard Padda meeting him, with twenty thousand horse, as he was returning forc'd him to run into Desoor ffort, so that now he can't gett out being surrounded by the Morrattos and moreover the Mogulls army being before Chingee: one Donage Johada and severall other great Persons, surrounded the Army whereby they cutt them off from all manner of Provisions comeing to the Prince and Assid Caun &ca whereupon many of the Mogulls Merchants and Shopkeepers came to us upon our granting them our Cowle, and we doubt not but with the help of God in fower or five dayes to have all our Enemies in Chingee ffort. Lately Bengalalsey Mamondob Shanebeg and Agaudau Cauderau have got into Conjeverone and ruind [the Countrey]: which came to his Majestys Rama [Rajahs] hearing, who sent me with a Thousand horse and fower thousand foot to these Parts where after my ariveall. I took their Drums, fflags, Trumpets and forty horse, whereupon they throwed off their Arms, and ran away to Triblecane, Sante May and those Parts leaving all behinde them. They are treacherous Rogues. So that if yor: Honr: denyes them shelter they can finde it no where.

Your Honr being a wise understanding man, knowing the Country Custome, and likewise the tymes; you are sencible whats fit to be donne and what not; Wherefore they being such of Villains and yor: Honr: so worthy and Judicious a Person, tis needless for me to tell your Honr: it will not prove your Intrest to protect them. If his Maje or his Excellency should chance to heare you succour them, they would take it very ill, and blame you since they have great Estates and Riches with them. Wherefore your Honour will doe well not to let them approach too neare you; all which will be a meanes to cause his Majesty and Excellency to have a greater esteeme for you; which I desire your Honr: may have, and therefore advise this, that false Reports may not be rays'd against you: ffor his Majesty and Excellency esteem's your freindship extreamly, being a Person of so great Judgment and mighty Power. Therefore I againe desire you not to let these Rogues approach your Townes of Chinepotam, or Triblecane, and if they doe, turne them out, which will mightily satisfy, and please his Majesty and his Excellency.

Wherefore let your Honour consider the contents of this Letter that so you may continue in their favour.

I bid you heartily farewell.

Contents of Letter from Conjeverone.

Received yesterday Letters from Yausemonaik from Chingy, and Cassa Ramanah from Conjeverone. By which as well as by dayly Reports of our spyes, employed into those Parts for Intelligence it appears that Zulphaker Cawn and Assid Cawn on whome our dependance from the first undertakeing has been wholly placed for obtaining the Mogulls Phirmaund, are reduc'd into such streights by the Morattos, that unlesse a speedy supply arrive of men and Provissions they will be forc'd to quitt the Seige of Chingee and withdraw their fforces out of these Parts, which yet is doubtfull whether they can escape the Morattos, who are growne too strong of late, by a Recruit of numbers. That they have environ'd Zulphaker Cawn in Desore ffort (a place of little defence) and Assid Cawn in the Camp; so that it will be difficult for them to escape. There have been also various Reports for ten days past of the Mogul's death, and Shaw Hallums Succession wch: is asserted by Arsemanaigue's Lettr: and beleived by some. By reason of Cawn Bux being lately imprison'd by Assid Cawn in the Camp by Shaw Hallums order, and the failure of the long expected supplyes. By which meanes there is a stop put to our Treaty at the Camp for a Phirmaund, Though our Letters mentioned in Consultation of the [*lacuna in the original*] of [*lacuna in the original*] to Assid Cawn Zulphaker Cawn and Emaum Cooley have been some time since ready with Copyes of our Golcondah Phirmaunds, attested by the Kings Duan, and 4 or 5 more eminent [*lacuna in the original*] in Town; and we doe not know how far this alteration in affayres may proceed, and how long it will continue.

The Letter from Artemanaigue mentions that Several of the Mogulls Servants with their Estates, are fled into Madrass, whome he expects we should secure & that from Cassa Ramana, names three men who are not to be admitted into Town. This day sent a Genll [to] ffort St. David.

Concerñg Allewerde Cawn.

The President acquaints: That on the 20th: Instant Cojee Abanus and Cojee Gregorie came to him and told him that Allewerde Caun Prisoner in Chingee, (mentioned in Consultation of 23rd: Decembr:) had wrote them that Ramrajah had promised his Liberty for an hundred thousand Pagodoes for wch: a Shroffe had engaged to pay down fifty Thousand in Chingee and give security for fifty thousand Pagodoes more payable to Ramrajah's order upon the safe arrivall of Allewerde Caun in ffort St George, and that he ordered them to transact with the Governour of ffort St George for the reception of Allewerde Caun on this occasion. Being asked where the said remayning fifty Thousand Pagodoes was; and in whose hands, They answered That they had an account of about Sixteene Thousand Pagodoes Value in Elephants, Jewells, &ca in ffort St George or neare it and Pagodoes ten thousand in Corrapa Pagodoes forty thousand in Golcondah Ready money in the hands of Allewerde Caun's Shroffs. But in answer to severall questions put to them how they could be assured that the severall sums would be reãdy to be paid upon the arrivall of Allewerde Caun, they answered as to the Elephants &ca: they could not buy them, nor knew any body that would buy them, as to the money at Corrapa that it could not be brought by land hither, nor that from Golcondah for fear of being seiz'd by the Marattos in the way, and being asked wither they themselves would be security for the money; or knew of any body else; They answered No. But advised the President to transact with the Dutch for remitting the money at Golcondah by Bills to Poliacat in his own name, and being asked what the Consequences would be, if upon arrivall of Allewerde Cawn in ffort St George, the money be not ready, or Allewerde Cawn being here, should then refuse to pay, and demand to be sett at Liberty by us in the Mogull's name, as being his Subject, and Servant: Whether on the one hand Ramrajah, would not require the money of us; and on the other hand the Mogull demand the delivery of his Servant Allewerde Cawn: They answered that it was to be well considered.

By which Passage it does appear that these Armenians have a Correspondence with the Mogulls Officers, and to serve themselves in strengthning their owne Interest would draw so great an Inconvenience upon the Rt: Honble: Company, by engageing us to intermeddle in such an affair, upon such unreasonable termes and, doubtfull Prospect as would in the Consequance probably, lead us into a Quarrell, either with the Mogull, or Merattos, according as the present uncertain state of the Warr between them shall determine, and they being Persons that doe so well understand the nature of such affairs, it gives reason to suspect that they doe not herein designe any good to the Rt: Honble: Company; the rather because they have of late expressed themselves much discontented at the forfeiting of Cojea Abbanus's Elepht: And we heare that upon some difference between Captain Dorrell and the Armenians in Bengall the English Pylots are taken out of their Ships.

Concerñg ye late Presidt Yale objeċons agst the manr of giving ye Gentue Oath.

Judge Dolben Reports from the Admiralty Court that in a Tryall this day between the Right Honourable Company and the late President Yale, and others for wrongs and damages done them. That the said Late President had objected against the manner of giveing the Gentue Oath, by the usuall Ceremony of fetching water and fflowers from the Pagodo into Court: affirming that there was a late order of Consultation, by which the Ceremony of takeing Gentue Oaths was for the future established to be done before the Pagodo upon which the Tryall was put off till the 28^th^ Instant. Upon which Report we have made Enquiry of M^r^ William ffraser who hath been Choultry Justice and M^r^ James Wheeler who now is one of them, and are now two of Councill here, and also of M^r^ John Bridger, who hath been Second of Councill here, and Choultry Justice, and a constant Inhabitant of this Place for about 25 or 26 years who all declared the way of swearing the Gentues: hath been in the Court before the Judg, by causeing water and flowers to be brought from the Pagodo: the fflowers are put upon their heads, and they drink some of the water before or in the Court and both are given and done by the Bramine of the Pagodo and in the presence of the eternall God, who they believe in a more Perticular manner to be in all Courts of Justice, are required to speak the Truth and we likewise upon enquiry finde this hath been the usuall practice here, between Jentue and Jentue, as is declared, by the Jentue Merchants of this Place That some years past brought an action against the Towne Conocoply (a Jentue allsoe) of above seaven thousand Pagodoes, W^ch^: action was try'd by witnesses sworne so in Court as aforesaid, without the [least] mention or complaint on either Side against the manner of giving the oath in Court, or not sending the Witnesses to be sworne at the Pagodo, and the same method was observed in the eminent case of difference determined by the President and Councill anno 1686 between the Connemeere Merchants and Jerra Chittee their then Cheif Merchant, who upon the rest of the Merchants swearing against him, after the aforesaid manner in Councill was degraded; of which Connemeere Merchants, those now concerned in this Tryall as Evidence between the Right Honourable Company, and the late President Yale were a part, and President Yale was then Second in Councill, and consenting to and active in that resolution of Councill, ffarther there doth appeare two English men Viz^t^, Thomas Crosse, and George Isaac in President Yales tyme try'd in the Mayors Court, where appeared no materiall Evidence but Jentues thus sworne in the Court, by which they were both condemn'd & executed; when it was in President Yales Power to have repreiv'd them, if he had not been satisfyd with that way of swearing the Evidence, for he himself signed the Warrant for their Execution. Farther M^r^ Hatsell (one of the Assist^ts^ in a superiour Court, sett up by Presid^t^ Yale, where he satt as Judg Advocate) and Edward Thredcroft the Regist^r^ doe allso affirme that the same Ceremony of water and fflowers from the Pagoda was always admitted in that Court as often as there was occasion of Jentue Evidence. But swearing before the Pagodo the most antient Inhabitants here know but two instances of, The first was after Tryall and Judgment, not as Evidence in the cause, (for that was determined by Evidence sworne after the usuall way in Court) but onely at the Instance of the Defendant; the Plaintiff by his owne Consent was to take up the money he had recover'd from before the Pagodo [. . .] The other instance was at the hearing of a Complaint in the Councill Chamber before the late President Yale and Councill against Vincattee Cheif Dubash at ffort S^t^ David who was accused of severall frauds and damages donne the Right Honourable Company (which cause is yet undetermined) Vincattee desyred that his arme and the Minters that witnessed the accusation against him might be made fast together, and so both put into Scalding Oyle, for a proof of Innocency, and named more Such

like Tryalls, but they were not approoved of by the President and Councill. There did appeare Two Peons had some discours with one of the Minters that had Signed a Paper against Vincatee; who being asked whether Vincatee was guilty of the Cheat in the Mint: answered, They writ and bid me put my marke, but it is against reason. By which it was to be beléived that somebody had been Tampering with some of the Minters: therefore it was thought fitt by the President and Councill that the Minters should be sworne at the Pagodo, which they consenting to was accordingly performed. This is the Consultation Presidt: Yale insisted on, but there is nothing in it that doth make voyd the usuall way of giving the oath in Court, or establish that or any other to be the onely way and rule that Should be used for the future as he hath affirmed in Court. We likewise sent for a dozen or fowerteene of the Ancient Braminy Preists the most eminent in the place, and asked them of the same matter, who all unanimously gave it as their opinion and Knowledg that this is the way of their owne Jentue Government, swearing witnesses in the Cornat Countrey, when Evidence was not beleived without an oath; but that their Governour did never send [for] or force any of them to be sworne at the Pagodo: But did cause water and flowers to be brought from thence and swears them in Court: ffor say they, what is the Pagodo, it is an Image a Stone, where a Governour is, there is God, where two men are, there God is present, They farther said that there were severall sorts or ways of swearing, according as the differing Persons doth mutually agree; either by goeing to thé Pagodo, or otherwise. But they againe assured us over and over, that the Government never caused them to sweare any other way but this mentioned in Court, Nor never sent any man to swear at the Pagodo: ffor this Ceremony of swearing at the Pagodo doth seeme to us to be thought so sacred, that the superstition of many of their Casts will not suffer them to performe, though they know beforehand the utter ruine of themselves and others, will inevitably ensue, upon their Refuseall of it, by which meanes it doth appeare to be impracticable in the ordinary course of Justice. Therefore we declare that according to the best Information we can finde, and some of our owne Experiences, this hath been the usuall way of swearing the Jentue Witnesses in Court before the Judg as aforementiond: and therefore Order the Continuance of it, Recomending to the Court to take speciall Regard to the Reputation of all such Persons as are admitted to give Evidence in Court with the Circumstances of the case: and also to take speciall care; that the water & flowers be brought from the Pagodo and the Ceremony done strictly as it ought, and by whome it ought to be, and that the adverse Party, against whome the Evidence is given, may have all due satisfaction therein if they Please.

Jentue Oath to be taken in Court.

We having Received a Petition from the Mayor and Alldermen of this Citty, about the measureing Duty of Rice and all sorts of Grain which is ceased to the Corporation, since the takeing of Sea Custome on the same, and desire they may have the Lycencing of publique houses to help support their dayly charge. It is Orderd That this be given for answer thereto. That we hope there may be supports for the Corporation found out by them wch: are not part of the Right Honourable Companys Revenues, and that it is necessary they lay before us the Present state of their Condition & their Incomes and Expences.

About three thousand of the Neck cloths, brought in by the Merchants on the Contract Anno 1688 for thirty five ℔ Pagodo and rejected by the Sorters as not agreeable to Musters: but being of the [muster req]uir'd by the Right Honourable Company were thought fitt to be Received according to their late orders upon proportionable abatements. President Yale and Councill did goe to the Godowne, and viewed the Neck cloths and made Musters according to the Order of Consultation the one and twentyth of Septembr last, and the said Musters were then charg'd by the Warehousekeepr and the Prices stated to be forty and fortyfive neck cloths Per Pagodo. though by reason of the Sampsons arriveall in few dayes after, there is no further Entry made by President Yale in his Consultations of what was then determined, but the Merchants not then comeing to deliver & sort the neck cloths, according to the agreemt nor would be perswaded to it, (though often urged) till now when 'tis allmost too late, to sort and Embale them for this ship. President Yale haveing last night sent the Comissary a Letter about the Jentues Oath. It was thought fit to desire him to come to us: and the Matter concluded on Judg Dolbens Report, of the 25th Instant to be read to him for answer to his said Letter in that matter which upon his appearing with us this morning was accordingly done. He then desyred that we would send to the Pagoda Braminy of Conjeverone, and take his opinion thereon. SATERDAY 28TH.

But it is about fifty miles thither: nor was not thought fitt that any one single opinion (let it be how it would be) should be valued against so many opinions, and so long a Practice in this Place, as is asserted in the said Paper that was read to him, which stands enter'd the 25th Instant in Consultation. It is resolved that some body must be sent as a Super Intend wth : Power, and good Instructions to settle and regulate all Affayres and accounts of that Place, and Mr John Pitt was offer'd to be sent thereon, now on the Madapollum : But he desyred to be excused as having a ffamily here, and envolved in Mr : [Allfords] Estate even as he had donne last yeare, refuseing then to goe to Vizagapatam, to examine Mr Dubois's ffrauds &ca : which was a very troublesome worke and accepted by Mr Simon Holcombe and performed by his care and diligence to great satisffaction ; as may be seene in the account thereof sent home by the Dorothy. Who now againe being discours'd in this Matter rather than the Right Honourable Companys affayrs should suffer in those Parts ; did readyly submit himself to our directions : Though we know it is much to the Prejudice of his own Perticular Affayres ; and hope our Right Honourable Masters will please to understand it soe. Whereupon it was ordr'd that he be apoyntd to goe thither on the Madapollum and to depart hence in fiveteen dayes and dureing his aboad on that Coast to be Deputy Governour of Yorke ffort and Cheife, and Supervisour of all the Right Honourable Companys affayrs there, and in all other Places on the West Coast of Sumatra, and to Proceed in all their Councills, and regulate all things according to our Instructions, which shall be given him to that purpose, and in Consideration of Mr John Pitts twice refuseall. It is ordered that Mr Symon Hollcombe shall Precede him in standing in the Right Honourable Companys service.

Mr Hollcombe to preceed Mr Pitt.

Concerg sendg ye Berkeley Castle to Engld

Haveing taken into Consideration, and Debated, Whether to send the Berkeley Castle, as twas formerly agreed to Bengall, or directly for Europe. We have proceeded to a Resolution therein upon the following Considerations. Vizt : Imprs : Reports of the Dutch ffleet on the Island of Ceilone and certain advice of ten Dutch men of Warr in Bengall, watching the motion of the ffrench ships, doe make us reasonably conclude the ffrench ships will not come to Bengall nor this Coast this season, and consequently the Berkeley Castle will run no hazard in lying in this Road : and allso ships doe not usually come in the month of ffebruary from Surrat to this Coast.

——*FORT ST. GEORGE, FEBRUARY 169⅔*—— [6TH]

2dly. The Resolution of sending the Berkley Castle to Bengall we grounded on these two Reasons, first, there did not then appeare a prospect of Lading her more than half full from hence. 2dly. That what we could Lade on her here would help to fill up a ship in Bengall; by which meanes twas hop'd that two might be dispatch'd from thence. But there doth now appeare a very good prospect of Lading her full from hence, before the Expiration of this month, with the Right Honourable Companys, and Permissive Goods, and the last Generall from Bengall Dated the 11th: of January doth advise that the salt Petre had been stop'd at Patna, noue come: but that it was then onely upon the way: and that they expect to dispatch but one ship besides the Tonqueen Merchant in March next, and Captain Dorrells Perticuler Letter to the Comisarry General dated the 11th: January doth advise, that he is doubtfull upon the Agents Death whether he shall be dispatch'd so soone; and if it should so happen the Berkeley Castle goeing down to Bengall would proove no convenience to the Dispatch of the other ships.

3dly. If we send the Berkeley Castle away for Bengall she must be dispatch'd in ten dayes, and there will be two or three hundred Bales of Coast Goods, left behinde, which will now goe on the Berkeley Castle, if she be dispatch'd directly from hence for Europe, whereas otherwise we shall not be able to send them till next yeare.

4thly. If the Barkeley Castle be dispatch'd for Europe. The Tonnage of a ship of Six hundred and fifty Tons is thereby provided for the Demurage saved and a Conveyance found for our advices to the Right Honourable Company.

Resolvd ye Berkly Castle to goe directly for Europe.

Tootenague to be unladen.

ye pepper continu'd

It is therefore Resolved that the ship Barkeley Castle be sent home directly for Europe and Mr Alverez having laden Tootanague and Pepper intended to Bengall, doth in Complyance with this our Resolution consent, that we may unlade the Tootenague againe, and that the Pepper being about three hundred seaventy-Eight Candy be continued upon the ship Consigned to the Right Honourable Company on their Terms mentioned in their Generll Dated the 25th: Janry: 168⅞ ℔ Defence, which we think convenient to admit of to secure a full Lading for the Ship and for the same Reason. It is agreed that any other Person may Lade more on the same Termes, and allso any sorts of Bengall or China Goods on the Right Honourable Companys Termes of Permissive Trade.

Permission to send Bengall or China Goods a bill to be set up yt ye Berkly Castle goes for Engld.

Mr. Hatsell to buy Mr. Stilemans Petre.

And it is order'd that this day, a Bill be sett upon the Sea gate, to give publique notice that those who are so minded may Lade Permissive Bengall, and China Goods; who are to bring in their Lysts and Invoyces upon which the Warehouse keeper may give an Order for receiving them on Board, having due regard to reserve roome enough for the Right Honourable Company's Goods; for which Proportion he is to make a computation of the Goods for which he gives an order and Mr Hatsell is ordered to buy all the fine Petre that Mr Styleman hath at eight Pagodoes ℔ Candy. And the Warehousekeepr is to permit Captn Hyde to put out of his ships on board of the fower Brokrs. so many of the Rt Honble Compas Bales as shall be convenient to make roome for the Shifting his ship and then to take them in againe.

In persuance to Your Excellency's &^{ca}: Order of Councill, directed to us the subscribers hereof, bearing date the 21st day of the last moneth, wee have with all care viewed Examined Resorted & vallewed all the blue cloth of Conimeer, & Porto Novo, that are now in the Godowne, and have divided each into 4 sortes, as they are inferiour to the goodness of their Musters, the better to direct and guide our Judgement^{t}: as to their severall valuation, which is in manner following Viz^{t}—

ffraser &ca. sorters [...]of the Conimere Porto Novo blue cloth.

Of the Conimeer 38: Bales wee find them thus;

	Pa.	fa.	ca.	
No. 1. of this No. 1, we make but 11 Corge, 12 p^{s}: Its difference worse then muster vallue.	01	12	0	℔ Corge.
2. of this sort or N^{o}: we make 15 Corge: 07½ p^{s}: Its difference worse then muster wee value.	03	12	0	℔ Corge

[20TH] —— *FORT ST GEORGE, MARCH 169⅔* ——

3. of this 3rd Sort we make . . . . . 16 Corge 10 p^{s} : its difference worse then muster we value.	08	0	0	℔ Corge.
4. of this 4th sort we make . . . . 12 Corge its difference worse then muster we value.	11	0	0	℔ Corge.

Of the Porto novo 39 Bales we find them thus;—

No. 1. Of this first sort we make but 3 Corge p^{s} : 0 its difference worse then muster we value.	02	18	0	℔ Corge.
2. Of this sort & N^{o} : we make 10 Corge p^{s} 10 its difference worse then muster we value.	05	0	0	℔ Corge.
3. Of this sort we make . . . 25 Corge & 10 p^{s} : its difference worse then muster we value.	07	0	0	℔ Corge.
4. Of this sort we find . . . . 18 Corge p^{s} : 00 its difference worse then muster we value.	10	0	0	℔ Corge.

Note that of the 38 Bales of Conimeere, one Bale is to be return'd, it contains severall peices that are torne and full of holes, the same we find in one of the 39 Bales of the Porto Novo cloth & therefore not merchantable, & is exclusive to the number of Corges before mentioned.

There was 4 Bales of the Conimeer blue cloth sent home upon the Dorothy Last October for the R^{t} Hon^{ble} Companys view.

Wee humbly request your Excellency &c^{a}: to believe that in resorting, Examining, and valueing of all the above mentioned Cloth, we have done soe even & Impartially (to the best of our Judgements) as we can, without prejudice or favour to any, and this our opinion and true report of the Conimere and Porto Novo blue cloth we certifie under our hands, Att Fort St. George the 24th: day of January 169⅔.

I have ℔used and considerd the Generall letter for Vizagapatam and with submission to your Honrs: better Judgment offer the following remark's thereon. Tis my opinion that the Merchants will not contract for Pagos: 15000 to be brought in by December, unless they have at least halfe advanced to them in hand, or that if they doe Contract, they will never comply with their obligation they being poor and indigent as well as the Weavours, who cannot fix their Loomes, without their Cooley being advanced to them.

Totally to discard the Moor Merchants I am apt to thinke may be very prejudiciall to ye: Honble: Companyes trade in those parts, by reason they are rich and able men, and when they find themselves quite cast off, 'tis hugely probable they will out of revenge under hand impeed our Merchants business in the

The Armenians deliver a Petition. The Judge & his Assists answer to ye Armenians Petition.

Cojee Gregorie and ten other Armenians came this morning and brought a Petition directed to the President and Councill, which is ordered to bee entred next after this Consultation & the Judge and Assistant of the Court doe thereunto answer for the present. That the Armenians have wholly misrepresented the business, the Court haveing made the opinion of all the Cheif persons of the Cast the rule by wch: they have proceeded in every Point, as delivered into Court and signed by thirty two of them: and shall be brought to the Honble: President and Councill which method was at first proposed & insisted on by the Armenians as the onely way to [come] to a certain knowledge of the Custome of the Cast, but the cause not being yet determined the Judge cannott draw up a perfect statement of it. But in the meantime does acquaint the Honble: President and Councill, that he hath had severall complaints and information brought to him that Cojee Gregorie and Cojee Stephen have been guilty of many ill practices to over rule and byass the opinions of ye Referees by which the Court would have been betraid into an erroneous Judgement. And further it is observed that the opinion given in by the heads of the Cast is in generall terms soe as to take in all Cases of the like nature, wherein any of the same Cast may bee hereafter concerned but the intent of their Petition is that the particular case depending between the parties may bee by nomination, refer'd to the determination of persons chosen out of the Cast by which means one party would have an advantage against the other by having greater influence upon the persons chosen.

reasons for not farming the Jaggery.

Whereas in Consultation the 19th [past] is mentioned Arrac Jaggery to be ffar[med] by Narraine &ca at Pags: 600 ℔ annm: which was allways intended and so declared to them before the outcry made, that the same was to bee understood onely of the sort of Jaggery which [w]as used onely for distilling Arrac. But [at] the outcry questions being put [by] severall bidders concerning the sorts of Jaggery, Upon which it was discoursed that there was three sorts of Jaggery used for distilling Arrac and thereupon the bidders did bid to Pags: 600, expecting to have [the] buying and selling of all those three sorts of Jaggery intirely engrossed to themselves whereas it is well known that two sorts [of] the three are for $\frac{7}{8}$ of all that is imported used by the meaner sort of people for [other uses] and that the Cost of that sort imported proper onely for Arrac doth not yearly amot to halfe the sume. It doth therefore appear to us to be a mistake, and doe upon consideration of all things alledged by the parties lay aside the ffarming of the Jaggery, and doe order a grant to bee given them onely for Arrac and Arrac root at the rate of Pags: seaven hundred and twenty as entred after this Consultation.

Hee has applyed himselfe to the Hon^ble: Comp^s: Court of Judicature of this place for redress, who have been favourably pleased to choose some of their Cast to report their Customes to them. But your Petitioners with their writer is enformed by the said Cast, that his business is not comprehended in the points delivered in by them, wherefore your Petitioners hum^bly implores your Hon^r: &c^a: that their serv^t Palum Tumana Chitty with Taumpe Tumana Chitty his adversaryes case by name may be put to the said persons chosen by the said Hon^ble: Court whether they ought to divide or share their Estates or noe in consideration of their smallness of kin, and independency of their famillies, if y^e said persons Order a Division, Your Petitioners will be the first shall see the same complied with, but if they say according to their Customes and Laws hee ought to have noe Dividend, wee are humble suitors to your Hon^r &c^a that our Servant may be delivered from the trouble and vexation he is put to, which makes him whoely useless to us.

Your hon^r: &c^a favour and Protection to our servant in what is just, will be y^e same as to ourselves, because without him wee cannott mannage our trade and business which now lyes hard and heavy upon us.

The Justices of the Choultrey haveing deliver'd an Inventory amo[t]: by computation to severall thousand Pag[s]: taken by themselves the Choultrey Officers, Armenians Moors and Persians of the goods found in the house of Allia the late murdered moorman, which is sign'd onely by the Choultrey Justices, officers, and Armenians, but the Moorman and Persians doe all refuse to signe the same, being all influenced by Ajamahmd Allee who is one of the Creditors, and doth insist upon the delivery of all into his hands, Promiseing to deliver the Nabobs Order, and the Cojas chop, whereunto allso the Armenians doe advise us, alledging that to be the onely way to secure us from trouble. But upon good consideration of all circumstances Wee cannot comply therewith for these reasons.

The Justices of ye Choultrey delivered an Inventory of Allia ye Moormans Estate. The Moorman & Persians refuse to signe ye Sd Inventory.

1. The introducing of the Nabobs Order and Cojas chop in such cases is an ill President not to be admitted.

2. If the Estate be deliver'd to Aja Mahmod Allee who is now Govornour of Pollicat and S[t] Thoma, hee is liable to a suddain removall and if the creditors of the Estate, who are known to bee many both here and in Bengall (besides others that may hereafter appear) should demand their money of us it may occasion a great deale of trouble to the place, Aja Mahmod Allee not offering any security which may bee liable to make good the demands of the creditors.

Reasons for not delivering Allias estate to Mahmad Allee.

3. Many of the known creditors are absent and their consents cannot be had.

In obedience to your commands I have examined what papers have come to my hands relating to Mr Thomas Yales voyage to Goa & China, as for the first there is a generall paper sign'd T: W: I: C: W: F: T: G; wherein Mr Yale is made Debtor for 980 Pags.

As for his voyage to China on ship [James] the same paper makes him debtor 1411 Pags but I cannot find any one paper that relates to anything of proofe thereof.

As for your Order concerning Mr Edward King, I have examined the Conicoplies that served him, and have writ under this their examinations.

Summoodro declares that in February last John Arts, [alias] John the Butcher told this Deponent that he had given Mr King [20] Pags that in March he gave him 30 Pags: [that] in Aprill, May and June this Deponent kn[o]ws Mr King recd: fiftey Pags each moneth, which was thus when John ask't for 200 pags at a time, Mr King paid him but 150 pags and tooke rects for 200 pags: when the month was allmost expired and John brought in 200 Pags worth of provisions they then cleared their accots: this Deponent finding that noe poultrey, nor any other provisions was brought in by any other person then John, this depont: ask't Mr King what was the reason thereof who replyed that John gave him more money than other people did, and further this deponent says not.

[27TH] ——*FORT ST. GEORGE, NOVEMBER 1693*——

Tonnapa declares that he heard Johns servants say that their Master gave Mr King every moneth money, to lett him [. . .] find the Company every moneth with all sorts of provisions, and further say'th not.

This is all the proofe I can find as yet.

Padre Clerici returning hither from Fort St David bringing with him the Licence formerly granted him and alledgeing that not understanding the English Language, he was not sensible of the Import of some articles, which upon consideration he finds directly contrary to the strict rules of his order, and that his acceptance thereof will render him liable to the Ecclesiasticall censure of his superiours, & therefore chooses rather to leave that place and repair to Madapollam, whither he is invited to succeed the Padre lately deceased, then to accept. Government for getting of goods, which practice tends to the ruein of the English trade there, and if the Interloper shall by their correspondence or Agents in these parts introduce the same practice, it would be no lesse injury to the English trade here, and therefore wee doe thinke ourselves obliged to doe all that in us lyes to prevent such a publick mischeif, and esteem it necessary that wee understand the contents of all the letters contain'd in that packet, before they are delivered to the parties, in order to which they to whome they are directed to be sent for, and if any refuse to open and shew their letters, to keep such letters sealed for further consideration. Mr Trenchfeild being sent for and the packet opened was found to contain the following letters Vizt to Mr Richard Trenchfeild, Mr George Lewis, Mr Thomas Yale, Mr John Haynes, Mr Daniel Chardine, Mrs Brown, the hoble Elihu Yale, Mr Richard Elliott, Mr Alvarez da Fonseca, Mr William Proby, Elihu Yale Esqr, Mr Will: Proby in East India, Mr John Pitt, Mr John Butterfeild in East India, and Mr Trenchfeild, Mr Chardine, Mr Alvarez da Fonseca Mr Proby and Mr Pitt being all sent for, one after another & acquainted that there was just reason to suspect that the letters in that Packett did probably come from the Interlopers, and might contain such matters [as] were not fitt to publish, and therefore wee did thinke fitt that the Presidents should peruse [them before they were delivered to them, but] they all refused to consent to it, and thereupon they were alltogether made up in one Packett with those two directed to the late Presidt Yale and one to Mr John Haynes, and sealed with the Comps seale, and delivered to the Secretary, the rest Vizt one directed to Mr Lewis, one to Mrs Brown, and one to Mr Proby from his younger bro: Charles in England were sent and delivered to them, as being supposed to be of little Import, but Mr Elliot, haveing consented to the opening of his letter, it proves to be from Mr Francis Willcox dated in Hughly the 10th December last, wherein he avers that the private ship Seamour is consign'd to Thomas Pitt, Allen Catchpole and himselfe, that they came out by order of the King and Councill, and have a letter of Mart to [wear] the Kings Coulors, and that ye East India Company is a dismantled Company for not complying with 5 ℔ Cent asses'd upon their stock by which means the trade now lyes wholey open, and fears the Comps ships are stop't by a genell: Embargoe the consideration of these letters is referr'd to another time, and hath allso deferr'd our debate upon other matters now intended.

The Master and Passenger of sloop John & Betty haveing been examined by the Mayor who finds reason to believe the masters relation, and takes care of the vessell for the owners accot, the Master was discharged and the men sent aboard to secure the vessell brought ashoare.

THE HONBLE NATHL: HIGGINSON ESQR PRESIDENT & GOVERNR
JOHN DOLBEN ESQR JUDGE ADVOCATE
MR WILLIAM FRASER.

Capt Freke haveing delivered the President a Protest on the 20th Instant for not haveing dispatch'd the ship Samuel, the time of her Charterparty being then expired, It is considered.

1. That said ship was entertained by the Rt: Honble: Compa: into their service doeth appear by their Generall letter to Fort St. George dated 22nd January 169½. Paragraph the 18th and 23rd.

2. Wee have not received the Charterparty Bill of Lading or Invoice, nor coppies of either, by the said ship nor any other.

3. It is taken for granted that the generall termes of the Charterparty, are the same with other Charterparties, But if there were any speciall termes, the same cannot be known to us but by the Captains Declaration.

4. Ship Samuel at her arrivall here, which was the 29th of Aprill 1693 was disabled for Charterparty service, by the want of Gunns, Rigging, and men, (discharged by Captn Freke himselfe att Tringombar, whome he refused to take aboard when offered here), and by his request and obligation of the 11th July he desires to goe with her into Bengall to compleat the fitting victualling and manning her that she may be made capable to enter the service of the Honble the Governour and Company of merchants of London tradeing to East India according to covenant charterparty which charterparty he ownes to be in force on the part of the owners and desires the Commissary &ca to own it to be so on the part of the Company, and that the Agent &ca in Bengall may have orders to receive her into service when she shall upon surveigh appear fitted victualled and man'd, and oblidges himselfe to performe charterparty on the owners part and acquaints that the time limitted by Charterparty is the 20th January 1693–4.

5. Upon Capt: Frekes foregoeing request an Order of Consultation passed the 24th July that Capt Freke may if he pleases goe with his ship Samuell to Bengall, and when he hath so fitted his ship that the Agent and Councill there have satisfaction that shee is fitt for the service of the Rt Honble Company, they are to receive her into the said service and employ her accordingly. The Ship Samuel thereupon proceeded to Bengall.

6. The Agent and Councill were accordingly advised by Generall letter and in Novembr last the Commissary Generall Ordered a surveigh to be taken of the Ship &ca by John Hampton &ca.

7. There is noe accot: of the report of the said surveigh nor any other advice concerning her from the Agent and Councill, but they Laden the Ship with the Rt Honble: Comps: goods consigned to Vizagapatam to take in more, and to this place as a Charterparty Ship, and the goods are not Laden on freight as may appear by Bill of Lading and Invoice.

8. On the 21st Instant Ship Samuel arrived here in the road. But on the day pr[e]ceeding while the ship was at anchor in the offing, Capt Freke delivers a Protest against the Company Presidt & Councill for not dispatching his Ship on that day being the terme of his Charterparty time.

Resolved that the following be sent to Capt: Freke.

Mr Hamon Gibbons haveing been formerly ordered in Consultation to draw up and deliver a narrative of the reason and manner of his leaving Indapoora factory, brought ye President a short paper, which being nothing satisfactory, was ordered to make a more full and particular [report] which hee often promised but haveing as often failed, was now sent for and promises to deliver it in two days. Hee was allso ordered forthwth to proceed upon the drawing of the accots: of Indapoora factory into Generall Bookes, there haveing been none made from the time of his goeing thither, and the President haveing examined all the accots: of Cash Warehouse and expences which are here, does report that there are many Errors and false charges therein, which ought to be stated in Generall Bookes. Mr Butterfield is therefore ordered to assist Mr Gibbons in that buisiness till it is done. William Townsend Trumpetter of Ship Samuel haveing requested that his servant William who run from the ship from Point de Gall, and is now a souldier in fort St David, may be sent hither, and be delivered to his Master who is under bond in England for his returne, It is ordered that the next generall letter to Fort St David, doe order them to send him hither, at the said William Townsends Charges.

Complaints haveing been made frequently of the Brokers abuse of strangers, It is ordered that the following paper be Translated into Persian, [*pages 189 to 192 missing.*]

[Jan: 25th 1693–4.

The farme of Beetle leave (which expired on the 15th Instant) haveing been at severall times considered and discoursed, there appear'd many objections against it, which were referred to the consideration of the Commissary Generall, But being necessitated now to come to a resolve the arguments are considered:

1. That farming is of the nature of a Monopoly.
2. That Licencing of an indifferent number of shops at a sett rate would be more beneficiall.
3. That it gives a great occasion of complaint among the Inhabitants of the place.
4. That the Country Government take notice thereof and make use of that as a President for imposing unusuall Junkans in goods going in and out of Town and will allso call us to an account for the great increase of the Revenue, which by this means is much discoursed in the Nabobs Durbar and may occasion the increase of town rent if a Phirmaund should be obtained.

The two first objections are generall against all farming as much as this, whereas the way of farming has been approved and recommended by the Rt Honble Company, and by experience it has been hitherto found that when particular licences were in the hands of the Company [they] never yielded near so much as when farmed, besides the charge of Conicoplies, Peons, &ca.

The complaints of the Inhabitants are two: First it is said that there were two hundred houses maintained by selling of leaves. Second that the Inhabitants doe pay dearer then they used. The first is altogether groundlesse, for there were but a very few Chittees, about five or six, who had in a manner engrossed the trade to themselves, and they employed severall under them, as your Servants or factors, in the same manner as the farmers now doe, and this complaint is managed only by the Chittees and their friends. But the second is more considerable and ought to be remedied, it having arisen from this cause, that the

* Copy from the Mackenzie MSS., Vol. 56, pp. 334–337.

——*FORT ST. GEORGE, JANUARY 169¾*—— [25TH]

farmer sold it generally by bundles or larger quantities at as cheap a rate as it used to be sold, yet they who bought it of them sold it out by retaile dear to the Poore people, who buy but a few cash worth at a time.

As to the Country Government it is very true that the Junkanners near the town have taken such notice of the profitt arising by it, that they have had thoughts of haveing that trade to themselves in such manner that the town shall bee supplyed by them, wherein some of our town Inhabitants have consulted with them, who were formerly concerned in the trade, and the Moormen and Persians who come to town have represented it to the consideration of the Nabob, upon which account Emaun Cooley and our black servants have generally pleaded against the continuance of it, fearing trouble from the Government, and proposed rather to take a Custom of a ¼ fanam upon a bundle in lieu of the farme.

On the other hand it is considered that the Rt Honble Company have in all their late Generall letters very strictly enjoined the improvement of the Revenue of this place, tho' it be known to them that we have no Phirmaund from the Mogull, and this being a considerable summe we may thereby be the better enabled to make a friendship with those who complain. It is therefore resolved to goe on with the farme but not to put it to sale by Public outcry. The severall persons who are enclosed [*sic*] to be concern'd in it having by private offers bid upon one another till it is risen to about the summe of three thousand Pags and among the bidders the following persons haveing taken into Partnership severall of the Chittees who formerly traded in beetle leaves and were the principal occasion of the complaints of the Inhabitants, and also severall of the Rt Honble Companys black servants, who are thereby ingaged in Interest to carry on the buisinesse with success, and [it] is as expedient as well to prevent complaints as the Junkanners opposition and stoping which the year past has been very troublesome. It is resolved rather to grant the farme to them for the following year in a private way then to expose it to a public sale, limitting the price to 4 leaves for a cash, and binding them to maintain a sufficient number of shops for retailing to the poor.

TO THE HONBLE NATHLL: HIGGINSON ESQR PRESIDT &CA COUNCILL.

May it please Your Honr &ca

It doeth not a little refresh my spiritts to find you are soe well satisfied, as to allow the Ship ♆ forming her voyage to England, onely some few things wanting, which shall with all expedition be supplyed, I hope your Honr: &ca will consider of not takeing soe much saltpetre out of ye Ship as 500 baggs, for if your Honr should it would much detard the dispatch of the Ship, for my men are most of them trusty Royers, never deceive their Master, but when he hath most need of them. I believe if I had not had the misfortune to have been ill, the Ship had been near ready her dispatch, by this time. I beg your Honr &ca to consider not to take above 419 baggs out, which will make no great difference, but hasten the dispatch very much; I will advise with my Mate when it will be necessary to send redwood and Pepper, before which time my Purser shall waite on the Warehousekeeper to weigh it off, tis all can be said by.

January 30th 169¾.

Cap^t^ William Freke being very ill, sent the following paper to the President and Councill recommending M^r^ Wilson as the most capable person to succeed him in case of his mortality.

To the Hon^ble^: Nath^ll^: Higginson Esq^r^.
President &c^a^ Councill.

Whereas the owners of Ship Samuel when they gave mee the Command of said ship did leave it to my discretion to constitute and appoint (in case of my mortality) which of my mates I should thinke most capable to take the Command and charge upon him, and being now very weak in body, but sound of mind, in persuance of the trust and confidence reposed in mee by my said owners I recommend to your Hon^r^ &c^a^: John Wilson my now Cheif Mate, and third mate when I left England, as a man in every respect capable to carry the ship home, and accordingly upon my failure I commit the charge & command of said Ship Samuel to his prudent care and mannagem^t^ desireing to procure for him if possible a good Cheif Mate, and then I question, but with Gods permission the ship will doe well I am very ill soe must beg leave to subscribe.
